

In case I did not send a thank you note the next day following receiving the donation, I am sending this email.

Rob and me and Rainbows for Kids can't thank you all enough for your generosity. Rob is looking forward to talking to your group when he can.

Tonight we had a baseball practice for our kids with cancer. Bob Franke is a volunteer with us and he serves as a coach for our Rainbows for Kids Baseball Team. I was looking at the kids and coaches and suddenly when I was looking at Bob I thought of how lucky we are to have such wonderful people who help us-- like the Kirkwood Optimists Club.

Every time we see these kids running and playing like "regular kids" it just touches our hearts. We could not do it without generous people like you. Your donation was really fantastic and we just really appreciate it.

Thank you again for making that donation. I am going to try to copy a picture here. You can see some of the kids practicing. We have "stations" and this was one station. The little eight year old girl batting has a prosthetic leg. She would not be able to play on a baseball team, but with Rainbows for Kids she's just a normal kid.

Thank you again.

Rob and Sally Rains and Rainbows for Kid
